

Prairie Dog Hunting at Thunderstik Lodge

Prairie dog hunting offers hours of lively entertainment. Whether you want to shoot at 100 or 600 yards, we can set you up with a clear view of the town for a quality day of shooting. Sharpen your shooting skills for that monster buck, elk or whatever you plan to chase in the coming season.

Prairie dogs are small targets and usually stay still for a number of shot opportunities but don't plan on easy shooting. Long distances, wind and wiley critters make prairie dog hunting fun and challenging.

The packages we offer are all inclusive and include all luxury and amenities one can expect when visiting Thunderstik. Add on a day or two of Walleye Fishing and make it a cast and blast!
